

MATERIAL SAFETY DATA SHEET

Wonder Waterwise Crystals

Date Issued: April 2017

Page 1 of 4

Revision No.: 2

Print Date: 20/11/18

1. PRODUCT AND COMPANY IDENTIFICATION

TRADE NAME: STOCKOSORB 660 MICRO

SUPPLIER: EFEKTO
PO BOX 652147
BENMORE
2010

TEL No. 0861 333 586

EMERGENCY TELEPHONE NUMBERS:

SPILLAGES: 083 1233 911

POISONINGS: 086 199 9071

Poisons Information Help Line 0861 555 777 (all hours)

Griffon Poison Centre 082 446 8946

Use: A soil conditioner.

2. HAZARDS IDENTIFICATION

- Spilled product in contact with water or moisture causes surfaces to become extremely slippery

Symbol: None

Risk phrases: None

UN No.: Not regulated

3. COMPOSITION/INFORMATION ON INGREDIENTS

Active ingredients:

Active ingredients.	CAS No.:	EC No.:
Potassium polyacrylate, cross- linked	25608-12-2	
Acrylic acid < 600 ppm		

Description: Polymer.

Chemical Name: Potassium polyacrylate, cross- linked.

Chemical Family: Polymer.

Chemical Formula: -

NIOSH/RTECS No.: Not available.

MATERIAL SAFETY DATA SHEET

Wonder Waterwise Crystals

Date Issued: April 2017

Page 2 of 4

Revision No.: 2

Print Date: 20/11/18

4. FIRST-AID MEASURES

Eyes: Rinse with much water for a prolonged time - if ill effects occur seek medical advice.
Skin: Wash with water and soap. Take off contaminated clothing.
Ingestion: If ill effects occur seek medical advice immediately.

5. FIRE-FIGHTING MEASURES

Specific hazards: In case of fire carbon monoxide, nitrogen oxides
Special protective clothing: None.
Environmental precautions: Collect and flush small residuals with much water into the drain for subsequent biological waste effluent treatment.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Spilled product in contact with water or moisture causes surfaces to become extremely slippery.
Environmental precautions: Collect and flush small residuals with much water into the drain for subsequent biological waste effluent treatment.

7. HANDLING AND STORAGE

Handling: Use respiratory protection when exceeding limit (see chapter 8) and dust is formed. Ensure sufficient workplace ventilation.
Advice on protection against fire and explosion: Avoid the production of dust. The product itself is not explosible, however, fine dust may form
Storage: Keep containers tightly closed, in a well-ventilated place dry place. Store away from food, drink and animal feeding stuffs. Keep away from children.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure limits: Respirable dust 0.05 mg/m³
The European Disposables and Non-Wovens Association (EDANA) recommends a workplace limit of 0.05 mg/cbm for respirable dust of superabsorbent polymer (particle size under 10 microns), based on the NOEL (No Observed Effect Level) of the two-year inhalation study (see section 11).
Personal protection equipment
Respiratory protection: Use respiratory protection when exceeding limit (see chapter 8) and dust is formed. Ensure sufficient workplace ventilation.
Hand protection: Does not apply
Eye protection: Protective goggles
Hygiene measures: Obey reasonable safety precautions and practice good housekeeping

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Powder.
Colour: White.
Odour: Odourless.

MATERIAL SAFETY DATA SHEET

Wonder Waterwise Crystals

Date Issued: April 2017

Page 3 of 4

Revision No.: 2

Print Date: 20/11/18

Vapour pressure:	< 20 hPa at 20.0 °C
Density:	0,7 g/cm ³
Bulk density:	~650 kg/m ³
Water Retention:	1g ≤ 150 ml
pH:	~7.7 at 1.0 g/l
Water solubility:	Insoluble

10. STABILITY AND REACTIVITY

Thermal decomposition: >200. °C

Stability: Stable under usual application conditions.

11. TOXICOLOGICAL INFORMATION

Acute oral toxicity LD₅₀: > 5000 mg/kg [Limit test].

Acute dermal toxicity LD₅₀: > 2000 mg/kg [Limit test].

Skin irritation Rabbit: Not irritating to the skin.

Eye irritation Rabbit: Very slight irritation.

Skin Sensitization: No sensitization.

Repeated dose toxicity: A chronic (two-year) lifetime inhalation study on rats, carried out with micronised dust of a superabsorbent polymer (in order to produce fully respirable particles) resulted in an unspecified inflammatory reaction in the lungs which caused the formation of tumours in some animals receiving the highest chronically administered concentration (see monitoring of the workplace/ protective equipment in section 8). Without chronic inflammation tumours are not to be expected. The study produced a NOEL definition of 0.05 mg/cbm for micronized dust of superabsorbent polymer.

12. ECOLOGICAL INFORMATION

Elimination information (persistence and degradability)

Biodegradability: Result: Not rapidly degradable under Aerobic conditions.

Ciliate toxicity: EC₅₀ Tetrahymena pyriformis > 6000 mg/l

Exposure time: 24, 00 h

Bacterial toxicity: EC₅₀ Ps. Putida > 6000 mg/l

Exposure time: 24.00 h Method: DEVL 8

Fish toxicity: LC₅₀ Leuciscus idus >5500 mg/l

Exposure time: 96.00 h Method: OECD Nr. 203

LC₅₀ Brachydanio rerio >4000 mg/l

Exposure time: 96.00h Method : OECD Nr. 203

Environmental Fate:

Polyacrylate absorbents are relatively inert in aerobic and anaerobic conditions. They are immobile in landfills and soil systems (>90% retention), with the mobile fraction showing biodegradability.

13. DISPOSAL CONSIDERATIONS

MATERIAL SAFETY DATA SHEET

Wonder Waterwise Crystals

Date Issued: April 2017

Page 4 of 4

Revision No.: 2

Print Date: 20/11/18

Product: Dispose of whilst observing local legal regulations. E.g. in a suitable incineration plant.

Contaminated packaging: Undamaged packaging may be responsibly reused after proper cleaning

14. TRANSPORT INFORMATION

UN No.: Not regulated.

15. REGULATORY INFORMATION

Labelling according to EEC Directive

Symbol: None

Risk phrases:

R22 Harmful if swallowed

Safety phrases:

S1/2 Keep locked up and out of reach of Children.

National legislation: In accordance with the South African National Road Traffic Act, 1996 (Act 93 of 1996), the Fire Brigade Act, 1987 (Act 99 of 1987) and the Occupational Health and Safety Act, 1993 (Act. No. 85 of 1993)

16. OTHER INFORMATION

Compiled by: Danie Fourie

All information and instructions provided in this Material Safety Data Sheet (MSDS) are based on the current state of scientific and technical knowledge at the date indicated on the present MSDS and are presented in good faith and believed to be correct. This information applies to the PRODUCT AS SUCH. In case of new formulations or mixes, it is necessary to ascertain that a new danger will not appear.

It is the responsibility of persons in receipt of this MSDS to ensure that the information contained herein is properly read and understood by all people who may use, handle, dispose or in any way come in contact with the product. If the recipient subsequently produces formulations(s) containing this product, it is the recipients sole responsibility to ensure the transfer of all relevant information from this MSDS to their own MSDS.
